REMOVAL OF DEPOSITS FROM
COPYRIGHT OFFICE

NOTICE is given to authors, copyright proprietors and other lawful claimants that they may claim and remove before January 1, 1954, any article of the following named classes of published works deposited for copyright between January 1, 1950, and January 1, 1951, not reserved or disposed of as provided by sections 213 and 214 of Title 17 of the United States Code and still remaining in the files of the Copyright Office at the time of the request for their removal. The classes of published works covered by this notice are:

Books and Pamphlets.

Contributions to periodicals.

Works of art; models or designs for works of art.

Reproductions of a work of art.

Drawings or plastic works of a scientific or technical character.

Photographs.

Prints and pictorial illustrations excluding prints or labels used for articles of merchandise.

Other published works and all unpublished works are excluded from this notice.

The request for the removal of any copyright deposit should be signed by the person entitled thereto or his duly authorized agent. Such request should identify the work by stating the title, author, copyright proprietor, registration number and year of deposit, and should be addressed to the Copyright Office, Library of Congress, Washington 25, D. C.

L. C. card, 6-35347

This number identifies the Library of Congress printed card for the complete series of the Catalog of Copyright Entries.

For sale by the Register of Copyrights, Library of Congress, Washington 25, D. C. Price for this part: \$1.00 per issue, \$2.00 per year.

PREFACE

The CATALOG OF COPYRIGHT ENTRIES is published by authority of sections 210 and 211 of Title 17 of the *United States Code*. Section 210 provides in part: "The current catalog of copyright entries and the index volumes herein provided for shall be admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration."

Each annual volume is subdivided to represent the classes of material listed in section 5 of Title 17 of the *United States Code*. The table at the end of this preface shows the organization of the *Catalog*, together with a brief listing of the materials principally contained in each part, the symbols used to distinguish the materials, and the prices of semi-annual issues and of the annual subscription to the complete *Catalog*.

Each copyright registration listed in the *Catalog* is recorded in a main entry, which includes a description of the work copyrighted and data relating to the copyright claim (the name of the copyright claimant, the copyright date, the copyright registration number, etc.). Cross-references, and, in some cases, indexes, are provided.

The name of the copyright claimant in each entry is that given in the application for registration. Available information in the records of the Copyright Office relating to subsequent changes of ownership can be obtained upon request and upon payment to the Register of Copyrights of the fee specified in the law for the conduct of a search of the records.

In the case of each registration listed, except for

renewals, the deposit of a copy (or copies) of the work has been made in accordance with the provisions contained in sections 12, 13, or 215 of Title 17 of the *United States Code*, or, in the case of published three-dimensional works of art, there has been compliance with section 202.8 (b) of the regulations of the Copyright Office, published in the Code of Federal Regulations, 1949 Edition, which provides for the deposit of identifying reproductions in lieu of the work itself. To distinguish foreign works, for which two copies have been deposited under section 215 of Title 17 of the *United States Code*, a zero immediately following the class symbol in the registration number has been used.

For a more complete description of the contents of this issue of the *Catalog* see p. vii.

Orders, payable in advance, for all parts of the *Catalog of Copyright Entries* should be sent directly to the Register of Copyrights, Library of Congress, Washington 25, D. C. Orders may be placed for individual issues, as subscriptions for one or more parts or for the complete *Catalog*, and for periods of one or more years. All orders should state clearly the title and the inclusive dates of the part wanted. Checks or money orders should be made payable to the *Register of Copyrights*.

The Copyright Office welcomes inquiries, suggestions, and comments on the content and organization of the *Catalog*. Such communications should be addressed to the Chief of the Cataloging Division, Copyright Office, Library of Congress, Washington 25, D. C.

HOW TO USE THE CATALOG OF COPYRIGHT ENTRIES, PART 11B

Commercial Prints and Labels (Part 11B) lists, in the first section, prints and labels published in connection with the sale or advertisement of articles of merchandise which were currently registered in Class K under the symbol KK. Renewal copyrights of commercial prints and labels are listed in the second section. Each registration is described in a main entry and cross-references are provided to facilitate the location of the main entries.

Each list is arranged alphabetically under the names appearing at the beginning of the main entries. Interfiled with the main entries are cross-reference entries beginning with other names or titles for which a searcher might look; in each case, the cross-reference refers the searcher to the name under which the main entry can be found. Main entries for currently registered works are listed under the names of the copyright claimants and when the name is followed by the copyright symbol, it is in the form given in the application. For renewal copyrights, the entries are listed under the names of the renewal claimants. Cross-references for currently registered works cover other names associated with the works, together with variant forms of these names; for renewal copyrights, the cross-references cover joint claimants and titles.

Each main entry for currently registered works includes, in addition to the name used in the heading, the following information descriptive of the work, if available and applicable:

- 1) Title.
- 2) Statement of the nature of the article of merchandise to which the print or label relates if not indicated elsewhere in entry.
- 3) A brief physical description of the item (labels are designated by the term "label"; prints are described by the use of such terms as "sheet," "card," etc.) followed by the name and issue date of the periodical or newspaper in which printed, in the case of an advertisement, when this information is available either in the application or the copy.

- 4) Names of authors given in the application which do not appear elsewhere in the entry.
- 5) Name of the employer in the case of a work made for hire, if so named in the application, together with the names of the employees.
- 6) Information contained in the application which relates to the registration of an earlier version of the work.

Information relating specifically to the claim of copyright is preceded by the copyright symbol © and includes the following:

- 1) Name of the copyright claimant when it is necessary to record essential information given in the application which cannot be included in the heading, otherwise the name of the claimant appears only in the heading followed by the copyright symbol.
- 2) Date of publication as given in the application.
- 3) Registration number.

An explanatory note is added to the main entry whenever it is necessary to indicate a variance in information which relates to the date of publication or the name of the claimant as given in the application and in the copy of the work.

For renewal copyrights the main entry includes, under the heading, the following information descriptive of the work:

- 1) Title.
- 2) A statement of the nature of the article to which the print or label relates.

Information relating to the claim of copyright is preceded by the copyright symbol © and includes:

- 1) Original copyright date.
- 2) Original registration number.
- 3) Renewal registration number.
- 4) Date of receipt of the renewal application.
- 5) Name of the renewal claimant, followed by an abbreviation in parentheses representing the claimant's statement of the basis of his renewal claim—e. g., John Doe & Co. (P) indicates that renewal of copyright, as claimed by John Doe & Co., as proprietor of a commercial print or label.

ABBREVIATIONS AND SYMBOLS

The following list includes abbreviations and symbols used in this catalog with specific copyright or bibliographic meanings. Definitions are not given for abbreviations in common use.

a.k.a.	—also known as	(P)	—proprietor of a commercial print or label

p.	—page, pages		

COPYRIGHT REGISTRATIONS FOR COMMERCIAL PRINTS AND LABELS

January–June 1953

Commercial prints and labels	6, 268
Renewals	44

The above figures represent the number of registrations for commercial prints and labels for January–June 1953, but do not necessarily represent the exact number of entries in this issue of the *Catalog of Copyright Entries*. Registration figures for other classes of material may be found in the respective parts.

COMMERCIAL PRINTS AND LABELS

An alphabetical list of prints and labels published in connection with the sale or advertisement of articles of merchandise, registered during the period covered by this catalog. Each registration is entered under the name of the copyright claimant. Brief entries in the form of cross-references from other names associated with the works and from variant forms of names are interfiled with the main entries.

REMOVAL OF DEPOSITS FROM COPYRIGHT OFFICE

NOTICE is given to authors, copyright proprietors and other lawful claimants that they may claim and remove before January 1, 1955, any article of the following named classes of published works deposited for copyright between January 1, 1951, and January 1, 1952, not reserved or disposed of as provided by sections 213 and 214 of Title 17 of the United States Code and still remaining in the files of the Copyright Office at the time of the request for their removal. The classes of published works covered by this notice are:

Books and Pamphlets.

Contributions to periodicals.

Works of art; models or designs for works of art.

Reproductions of a work of art.

Drawings or plastic works of a scientific or technical character.

Photographs.

Prints and pictorial illustrations excluding prints or labels used for articles of merchandise.

Other published works and all unpublished works are excluded from this notice.

The request for the removal of any copyright deposit should be signed by the person entitled thereto or his duly authorized agent. Such request should identify the work by stating the title, author, copyright proprietor, registration number and year of deposit, and should be addressed to the Copyright Office, Library of Congress, Washington 25, D. C.

L. C. card, 6-35347

This number identifies the Library of Congress printed card for the complete series of the Catalog of Copyright Entries.

For sale by the Register of Copyrights, Library of Congress, Washington 25, D. C. Price for this part: \$1.00 per issue, \$2.00 per year.

PREFACE

The CATALOG OF COPYRIGHT ENTRIES is published by authority of sections 210 and 211 of Title 17 of the *United States Code*. Section 210 provides in part: "The current catalog of copyright entries and the index volumes herein provided for shall be admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration."

Each annual volume is subdivided to represent the classes of material listed in section 5 of Title 17 of the *United States Code*. The table at the end of this preface shows the organization of the *Catalog*, the symbols used in the registration numbers to distinguish the classes, and the prices of the semi-annual issues. The annual subscription for each part is twice the price of a single issue and the complete catalog, including all parts, may be secured on a subscription basis for \$20 a year.

Each copyright registration listed in the *Catalog* is recorded in a main entry, which includes a description of the work copyrighted and data relating to the copyright claim (the name of the copyright claimant, the copyright date, the copyright registration number, etc.). Cross-references, and, in some cases, indexes, are provided.

The name of the copyright claimant in each entry is that given in the application for registration. Available information in the records of the Copyright Office relating to subsequent changes of ownership can be obtained upon request and upon payment to the Register of Copyrights of the fee

specified in the law for the conduct of a search of the records.

In the case of each registration listed, except for renewals, the deposit of a copy (or copies) of the work has been made in accordance with the provisions contained in sections 12, 13, or 215 of Title 17 of the *United States Code*, or, in the case of published three-dimensional works of art, there has been compliance with section 202.8 (b) of the regulations of the Copyright Office, published in the Code of Federal Regulations, 1949 Edition, which provides for the deposit of identifying reproductions in lieu of the work itself. To distinguish foreign works, for which two copies have been deposited under section 215 of Title 17 of the *United States Code*, a zero immediately following the class symbol in the registration number has been used.

For a more complete description of the contents of this issue of the *Catalog* see p. vii.

Orders, payable in advance, for all parts of the *Catalog of Copyright Entries* should be sent directly to the Register of Copyrights, Library of Congress, Washington 25, D. C. Orders may be placed for individual issues, as subscriptions for one or more parts or for the complete *Catalog*, and for periods of one or more years. All orders should state clearly the title and the inclusive dates of the part wanted. Checks or money orders should be made payable to the *Register of Copyrights*.

The Copyright Office welcomes inquiries, suggestions, and comments on the content and organization of the *Catalog*. Such communications should

be addressed to the Chief of the Cataloging Division, Copyright Office, Library of Congress, Washington 25, D. C.

In the following table, the symbols listed represent the materials principally contained in each part; for other materials, including renewals (always designated by the symbol R), which may be included in a particular part and for a more complete statement of contents, the respective "How-to-Use" section should be consulted. In a registration number a zero immediately following the symbol, i. e., AF0, EF0, indicates that two copies of a foreign publication have been deposited with a catalog card and application for registration, under the provisions of section 215 of Title 17 of the *United States Code*.

HOW TO USE THE CATALOG OF COPYRIGHT ENTRIES, PART 11B

Commercial Prints and Labels (Part 11B) lists, in the first section, prints and labels published in connection with the sale or advertisement of articles of merchandise which were currently registered in Class K under the symbol KK. Renewal copyrights of commercial prints and labels are listed in the second section. Each registration is described in a main entry and cross-references are provided to facilitate the location of the main entries.

Each list is arranged alphabetically under the names appearing at the beginning of the main entries. Interfiled with the main entries are cross-reference entries beginning with other names or titles for which a searcher might look; in each case, the cross-reference refers the searcher to the name under which the main entry can be found. Main entries for currently registered works are listed under the names of the copyright claimants and when the name is followed by the copyright symbol, it is in the form given in the application. For renewal copyrights, the entries are listed under the names of the renewal claimants. Cross-references for currently registered works cover other names associated with the works, together with variant forms of these names; for renewal copyrights, the cross-references cover joint claimants and titles.

Each main entry for currently registered works includes, in addition to the name used in the heading, the following information descriptive of the work, if available and applicable:

- 1) Title.
- 2) Statement of the nature of the article of merchandise to which the print or label relates if not indicated elsewhere in entry.
- 3) A brief physical description of the item (labels are designated by the term "label"; prints are described by the use of such terms as "sheet," "card," etc.) followed by the name and issue date of the periodical or newspaper in which printed, in the case of an advertisement, when this information is available either in the application or the copy.

- 4) Names of authors given in the application which do not appear elsewhere in the entry.
- 5) Name of the employer in the case of a work made for hire, if so named in the application, together with the names of the employees.
- 6) Information contained in the application which relates to the registration of an earlier version of the work.

Information relating specifically to the claim of copyright is preceded by the copyright symbol © and includes the following:

- 1) Name of the copyright claimant when it is necessary to record essential information given in the application which cannot be included in the heading, otherwise the name of the claimant appears only in the heading followed by the copyright symbol.
- 2) Date of publication as given in the application.
- 3) Registration number.

An explanatory note is added to the main entry whenever it is necessary to indicate a variance in information which relates to the date of publication or the name of the claimant as given in the application and in the copy of the work.

For renewal copyrights the main entry includes, under the heading, the following information descriptive of the work:

- 1) Title.
- 2) A statement of the nature of the article to which the print or label relates if not indicated elsewhere in entry.

Information relating to the claim of copyright is preceded by the copyright symbol © and includes:

- 1) Original copyright date.
- 2) Original registration number.
- 3) Renewal registration number.
- 4) Date of receipt of the renewal application.
- 5) Name of the renewal claimant, followed by an abbreviation in parentheses representing the claimant's statement of the basis of his renewal claim—e. g., John Doe & Co. (P) indicates that renewal of copyright was claimed by John Doe & Co., as proprietor of a commercial print or label.

ABBREVIATIONS AND SYMBOLS

The following list includes abbreviations and symbols used in this catalog with specific copyright or bibliographic meanings. Definitions are not given for abbreviations in common use.

COPYRIGHT REGISTRATIONS FOR COMMERCIAL PRINTS AND LABELS

July–December 1953

Commercial prints and labels	5,382
Renewals	23

The above figures represent the number of registrations for commercial prints and labels for July–December 1953, but do not necessarily represent the exact number of entries in this issue of the *Catalog of Copyright Entries*. Registration figures for other classes of material may be found in the respective parts.

COMMERCIAL PRINTS AND LABELS

An alphabetical list of prints and labels published in connection with the sale or advertisement of articles of merchandise, registered during the period covered by this catalog. Each registration is entered under the name of the copyright claimant. Brief entries in the form of cross-references from other names associated with the works and from variant forms of names are interfiled with the main entries.
